「MacBook Air」

2019/02/18
相田 太一

Introduction

I talk about MacBook Air. It is one of the most famous devices in Apple. In 2008, first MacBook Air was released as “The world’s thinnest notebook”. Recently, the new model was released on October 2018.

Body

One of the most famous features in this device is light and thin body. When the first speech, Steve Jobs picked it up from an envelope and proved new MacBook’s Thinness. New MacBook Air has touch ID which makes your Mac unlock, locked documents or Apple Pay smoothly.

Conclusion

MacBook Air has been loved by everyone, and this new model make you fall in love again.
