

Do you know what a Seeing Eye dog is?

One day when I was going to cross the street, I met a blind man with a dog. When the traffic signal changed from red to green, the dog guided the man and crossed the street.

I was interested in the dog and said to the man, "Excuse me, but your dog can understand the signal, can't it?"

"No, it can't," he said. "But it watches people and cars carefully, and knows when to cross the street. If cars are coming near, it does not start walking even I say 'Go!'"

Q1 Who did the writer meet?

Q2 Can the dog understand the signal?

Q3 If you say 'Go', does dog always start walking?
